

Knowledge Organiser- History - Year 3 - Summer 1

Monumental Metroland

STICKY KNOWLEDGE

The world's first underground railway opened in London in 1863

In Pinner, transport has advanced over the last 150 years.

In 1915 'Metro-land' was publicised to promote Pinner, and in 1919 a company was set up to concentrate on housing.

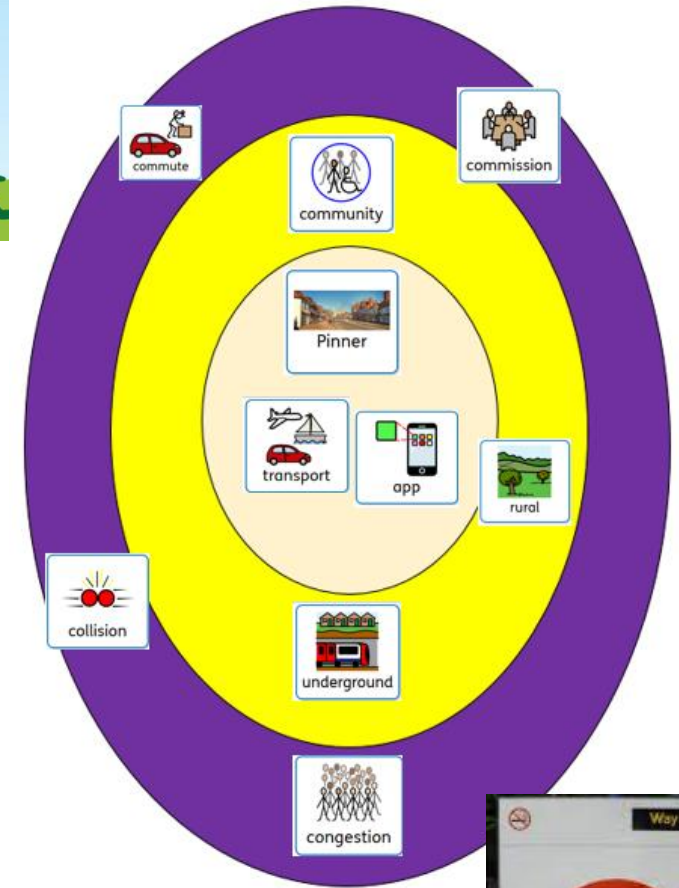

After the Harrow and Wealdstone railway accident, new safety features were introduced across the network.

Technological advancements have meant that we are now able to track and book transport easily.

Public transport is at the centre of life in Pinner with buses and trains being the main way that people travel.

KEY VOCABULARY

London Underground	A underground and over ground railway system in London.
