At Pinner Wood we are concerned about the safeguarding issues related to the use of personally owned mobile devices within school. This includes but is not limited to:

- Valuable items which can be lost, stolen or damaged
- Inappropriate use for cyberbullying or exploitation
- Internet access on phones and personal devices can allow pupils to bypass school internet filtering platforms
- Possible disruption to classroom activities
- Mobile phone cameras could lead to child protection, bullying, data protection issues with regards to inappropriate capture, use or distribution of images of pupils or staff
- Making disrespectful comments, misrepresenting events or making defamatory remarks about teachers or other pupils
- Pupils posting material on social network sites with no thought to the risks to their personal reputation and sometimes with the deliberate intention of causing harm to others
- The deliberate filming of events or people in order to humiliate, embarrass and intimidate by publishing to a wider audience such as on social media websites
- Children becoming targets for phone theft/robbery
- Excessive use of mobile phones, including social media and gaming apps, can lead to screen addiction, which can negatively impact mental health by causing anxiety, depression, and sleep disturbances.
- Excessive phone use may lead to reduced face-to-face social interactions, which are important for the development of social skills and emotional intelligence.
- Affects the development of the brain
